Unit 2-4: Search Engines and Search Bars

◆ Sometimes, when you use the internet you need to find information, but don't know where to find the information you need.

For example, if you need to apply for a driver's license, but don't know the web address (URL) where you can apply, you can use Google (or another search engine) to find it."

◆ "A search engine helps you to find websites. Google is a popular search engine.

There are many others. <https://blog.hubspot.com/marketing/top-search-engines>

You can type the important words in the search engine to help you find what you are looking for.

◆ Open Google.com (or Bing.com)

◆ Write 'apply driver's license [your state or city]' in the search bar.

◆ Open the corresponding website.

◆ "There are two places where you can write words to help you find information."
