

Internet Basics

Unit: 2 – 5

Search Results

Warm-up: Thumbs Up / Thumbs Down

QUESTIONS I HAVE?.....

Search Results

- 12. Perform internet search using clear parameters (terms and filters).
- In this lesson, learners will practice analyzing the results of a Google search in order to identify the best search results.

- Google searches can deliver hundreds of websites - it is important for learners to gain experience reading the blue links
- first to identify websites more likely to have the information they are looking for. They should also identify the web address
- for the result of their search.
- Teaching Tips:
 - A Google search results page can vary widely - some searches give you maps, others will give you images. Show
 - learners how the Google search results page changes depending on what you are searching for.
 - This lesson was written around Google but will work for other major search engines, including Bing and Yahoo
